

ANTHONY CARON

Full-Stack Web Developer

Tucson, AZ · (801) 791-9906 · tonymcaron@gmail.com

[Portfolio](#) · [GitHub](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-stack web developer with a Career Foundry certification and a passion for understanding how systems work from the ground up. Brings 23 years of technical expertise, customer service excellence, and meticulous attention to detail from the bicycle industry — now applied to building modern, user-centered web applications with clean, maintainable code.

CORE COMPETENCIES

Frontend: React · Angular · React Native · HTML5 · CSS3 · Bootstrap · Responsive Design · Web Accessibility

Backend: Node.js · Express · REST APIs · MongoDB · Firebase · Serverless Architecture

Languages & Tools: JavaScript (ES6+) · Git / GitHub · Parcel · Expo · Test-Driven Development · OAuth2

Concepts: Data Visualization · Progressive Web Apps (PWA) · Offline Caching · Cross-Browser Testing · Agile Development

Professional: Technical Communication · Customer Service · Remote Collaboration · Process Improvement · Technical Documentation

FEATURED PROJECTS

myFlix App

A full movie catalog application built end-to-end. REST API backend with user authentication and movie data, paired with both a React single-page application and a separate Angular frontend.

Tech stack: JavaScript · Node.js · Express · MongoDB · React · Angular · Parcel

Real-Time Chat App

A cross-platform mobile chat application with real-time messaging capabilities, offline support, and media sharing.

Tech stack: React Native · Expo · Firebase

Serverless Progressive Web App

A responsive, installable PWA built with a test-driven development workflow and serverless backend functions.

Tech stack: React · Serverless Functions · TDD · PWA / Offline Caching

PROFESSIONAL EXPERIENCE

Bicycle Mechanic | **Guru Bikes** — Tucson, AZ

September 2024 – Present

- Perform full-service bicycle builds, custom wheel builds, and all repairs
- Provide expert customer consultations on components, fit, and maintenance

Bicycle Suspension Technician | **Suspension Syndicate** – Salt Lake City, UT

January 2023 – July 2024

- Performed factory services and overhauls, aftermarket upgrades, and custom tuning of mountain bike suspension components
- Managed all shop email communications and coordinated local deliveries and pickups

Brand Support Technical Rep | **Quality Bicycle Products (QBP)** – Ogden, UT / Remote

October 2015 – October 2022

- Played a foundational role in creating this position, expanding from a hybrid sales/support function to dedicated brand technical support
- Operated fully remote from 2016–2022, demonstrating strong self-direction and async communication skills
- Served as primary technical and warranty resource for QBP's proprietary brand portfolio, supporting both dealers and end users nationwide
- Collaborated cross-functionally with brand and product managers, engineers and sales teams to resolve technical issues and improve product documentation

Sales & Service Call Center Agent | **Quality Bicycle Products (QBP)** – Ogden, UT

April 2015 – October 2015

- Assisted dealers with orders, returns, and component / technical questions
- Supported select proprietary brands, a role that directly led to the creation of the Brand Support Tech Rep position

Inbound Lead | **Quality Bicycle Products (QBP)** – Ogden, UT

April 2010 – October 2013

- Provided technical leadership for all inbound distribution center operations
- Delivered daily workflow direction and troubleshooting guidance to team members
- Actively contributed to continuous process improvement initiatives

Distribution Center Professional | **Quality Bicycle Products (QBP)** – Bloomington, MN

January 2010 – April 2010

- Executed all DC functions (shipping/receiving, restocking, returns, and forklift operation)
- Member of QBP's Advocacy, Community & Environment (A.C.E.) Committee, as well as continuous process improvement and safety teams
